

CORPORATE INTRODUCTION
2025

A NOTE FROM THE CHAIRMAN

I extend my sincere thanks to our clients, partners, and employees whose trust and dedication drive Arab Development forward.

Since the early 1980s, we have evolved into one of the UAE's leading family business groups, guided by a commitment to excellence, integrity, and long-term value creation. Our focus on continuous improvement, operational efficiency, and strategic growth has enabled us to thrive, even in challenging markets.

Through prudent investment and diversification across real estate, hospitality, energy, and services, we have delivered landmark projects both locally and across the GCC.

As we enter a new phase of growth, we remain committed to innovation, resilience, and creating value for all stakeholders.

Thank you for being part of our journey.

Yousif M. Al Nowais

INTRODUCTION

Who We Are

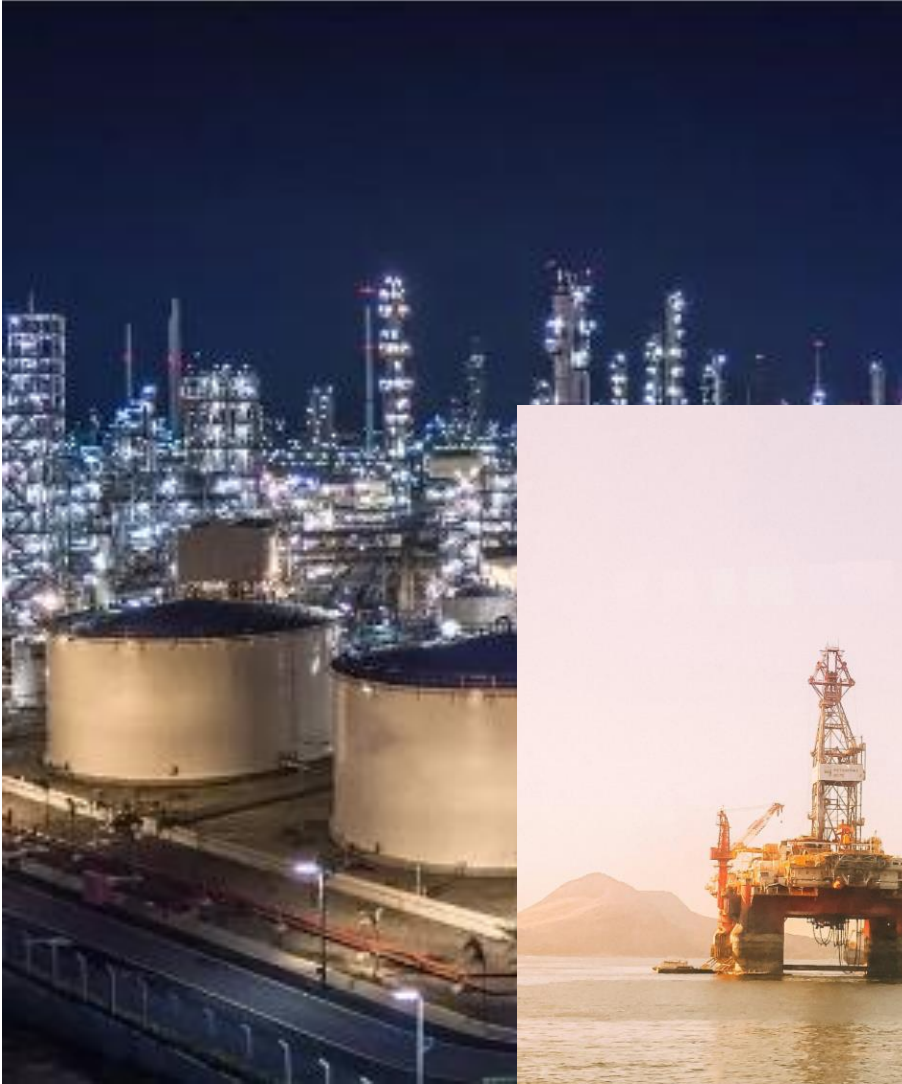

OUR JOURNEY

Founded in 1980, and Head Quartered in Abu Dhabi, UAE, Arab Development has evolved into a diversified business enterprise with a broad portfolio of business operations spanning multiple critical sectors in the UAE.

Initially focused on the Power & Utilities, Infrastructure & Construction and Oil & Gas sectors, we have since expanded our expertise to cover Petrochemical and Renewable Energy.

As a result of our long-standing partnerships with globally renowned companies coupled with proactive engagement with regional clients, Arab Development has established itself as a reliable partner for high impact initiatives and large-scale projects across the region.

OUR BUSINESS

Arab Development's business model is driven by a holistic approach to value creation across multiple industries and sectors.

Our broad exposure to multiple industries allows us to cross-pollenate solutions across sectors.

Our extensive local presence, deep understanding of the regional market makes us a key player in the UAE.

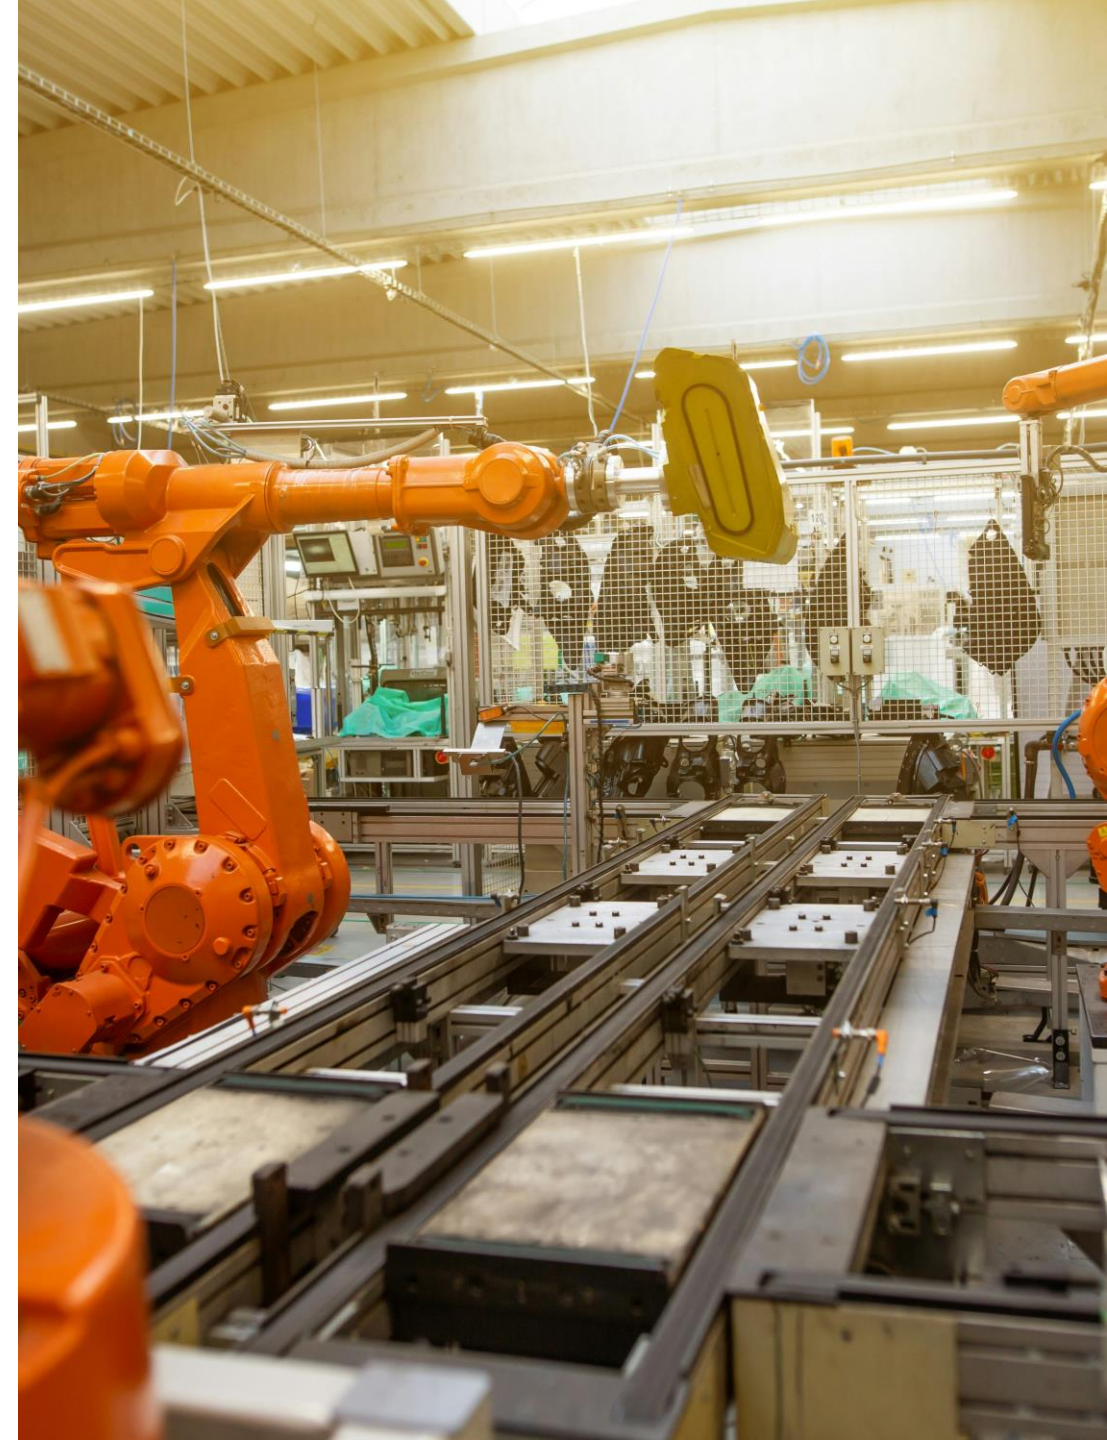

Coupled with our collaborative engagement with our international partners, we actively engage our clients and deliver bespoke solutions tailored to their needs.

OUR OBJECTIVE

Our proactive and dynamic approach emphasises Trust, Collaboration, Innovation, and Service, ensuring long-term success for our partners and clients while also contributing to the socio-economic development of the UAE.

In the last decade, Arab Development has fortified its position in the UAE as a Leader in the Oil & Gas sector, by leveraging its global strategic alliances with technology and service providers to satisfy the local demand.

In line with UAE's National Development Strategies and Economic Diversification Goals, we are now Focused on Transforming our Partnerships into Joint Ventures that will simulate the Nations economy, generate In-Country Value and contribute to the Industrialisation of UAE.

VISION, MISSION, & CORE VALUES

How We Work

OUR VISION

With a vision rooted in progress and a mission driven by impact, Arab Development continues to strengthen its role as a catalyst for growth across multiple industries. Our commitment to innovation and in-country value [ICV] creation ensures that we remain a trusted partner for international and local stakeholders alike.

Besides contributing to sustainable and diversified economic growth in the UAE, we want to be recognized as a:

- **Strategic Partner of Choice across the UAE and the region.**
- **Catalyst for Technological Innovation, driving industry advancements and sustainability.**
- **Leader in generating In-Country-Value across industries.**

OUR MISSION

Systematically bridging global partnerships

- Cultivating collaboration with international market leaders, enabling us to deliver cutting-edge solutions customised for the unique requirements of regional clients.

Successfully delivering high-impact initiatives and projects

- Steering our partners to implement innovative, efficient, and sustainable projects and solutions that elevate industry standards.

Effectively contributing to UAE's socio-economic development

- Aligning our efforts with UAE's broader development strategies, promoting local workforce advancement, technological progress, and growth of local content.

OUR CORE VALUES

Integrity

We conduct all our business with the highest ethical standards, ensuring trust and transparency.

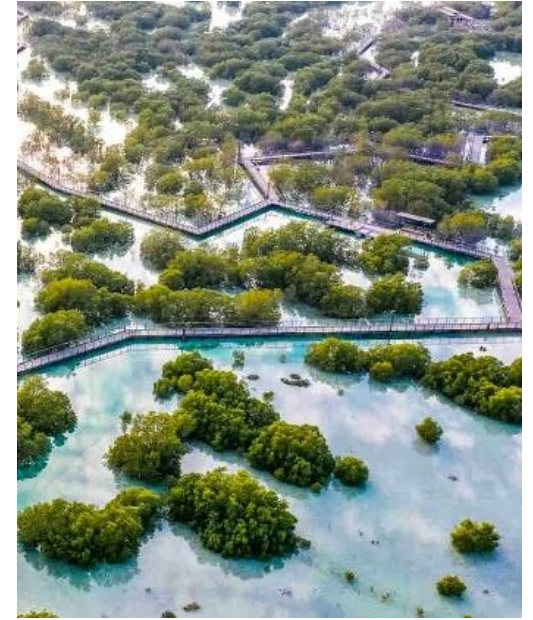

Innovation

We believe in the power of innovation, leveraging new technologies and methods to stay ahead.

Commitment

We are dedicated to meeting the needs and expectations of our clients, partners, and stakeholders.

Sustainability

We are deeply committed to promoting sustainable development that align with national objectives.

INDUSTRIES WE SERVE

What We Do

OIL & GAS

Upstream & Downstream

We offer extensive services across the oil and gas value chain, supporting both upstream and downstream operations:

- Engineering, Procurement, and Construction (EPC) services for oil and gas facilities.
- Supply of critical equipment such as compressors, turbines, pumps, and valves.
- Installation and maintenance of oil and gas pipelines.
- Refinery & petrochemical plant development & upgrades.
- Offshore and onshore construction services.

Petrochemicals

We partner with global leaders to deliver comprehensive petrochemical solutions, from project conception to completion:

- EPC services for petrochemical facilities and complexes.
- Supply of high-performance chemical processing equipment.
- Feasibility studies and economic evaluations for petrochemical ventures.
- Provision of catalysts, chemical treatment systems, and specialty equipment.

POWER & UTILITIES

We are actively involved in developing the region's power and water infrastructure, providing innovative and reliable systems. Key services include:

- Design, construction, and commissioning of power plants.
- Supply of power generation equipment such as gas turbines, diesel generators, and transformers.
- Electrical Distribution and transmission system design and installation projects.
- Water desalination and treatment plant projects.
- Water pipelines and pumping stations projects.
- Uninterruptible power supply (UPS) systems.
- Substation construction and power grid integration pro.

INFRASTRUCTURE & CONSTRUCTION

Our commitment to building the future extends to its involvement in regional infrastructure and construction projects. Services include:

- Construction of transportation networks, highways, and bridges.
- Construction of metro and railway projects.
- Development of industrial facilities and large-scale structures.
- Manufacturing of steel structures and pipelines.
- Project management and consulting for construction and infrastructure initiatives.
